2005 Recycling Grant Application

Enclosed is the application for Recycling Grants to Responsible Units for 2005. **Please be aware that the application must be in this office or postmarked by October 1, 2004.** This is the only copy being sent to your responsible unit. If you are not responsible for completing this application, please give the application packet to the person who is responsible. Instructions for completing the application, as well as an ordering form for recycling publications which you may find useful, are also included. If you need an additional copy, please contact us. Forward the application and publications order form to us using the address on page 2 of this letter.

Filing an Application

Please complete all seven pages of the grant application. The five financial forms at the end of the application should be used to detail your recycling program costs. Retain these financial forms (pages 3-7) in your files. **Be sure to transfer the information from these forms to section 2, page 2, as indicated. The transfer of these numbers is especially important because we are asking that you submit only pages 1 and 2 to the Department.**

This application must be postmarked by October 1, 2004 in order to receive full grant funding. Late grant applications will only be eligible for a reduced grant according to the following schedule:

Applications submitted by:	% of Grant Award Funded:
October 10	95%
October 20	90%
October 30	75%
October 31	0%

If the application is not postmarked by October 30, your responsible unit will not be eligible for a 2005 recycling grant.

Effective Program Criteria

Please note that the responsible unit must continue to maintain an approved effective recycling program that meets state law in order to be eligible for a recycling grant.
